

# COMPANY AUDITION PROCEDURE 2009.

## Applicants Aged 16 - 25 years

### *PART ONE*

*We would like you to design your character based on the dialogue below. Create a character and deliver the lines as he/she would. Think about the dialogue and the reaction the OTHER character may have to you. Set the scene and be ready to ask questions. Make sure that you create a back story and know why you are playing the character that way. We have removed all punctuation to give you 100% creative licence. Please play this for STAGE.*

One: This is so gross  
Two: I've done worse try cleaning out chicken rotisseries I always got that job 'cause the supervisor hated me but I got back at him one day by turning up the temperature so they all burnt the whole place stank for days  
One: Lucky they're not going to ask you to cook chicken here  
Two: Nah only do baked beans here anyway I hate fancy food except for Chinese I love honey prawns  
One: Wish we could go Chinese one night  
Two: No chance we could always do a runner I guess  
One: So what do you do  
Two: What did I do  
One: You know what I mean  
Two: I did it all now I do nothing  
One: Anyone would think that we are prisoners the way they treat us  
Two: It's power in the wrong hands

### *PART TWO*

*We will redirect the piece for you. We will ask you to take the character a completely different way and see how well you can take direction and adapt to changes.*

### *PART THREE*

*You will be given a cold read. This will be a TV Commercial script. You will have a few minutes to look at it before you have to perform it.*

### *PART FOUR*

*You will be given a 'word' and asked to create an Improv based around it. If you need help with it, we will help you by offering suggestions. This part is really to assess where you are up to with Improv.*

*Please bring your headshot and resume on CD/DVD or a thumb drive/USB*
